شركة بلو وايل للتوريدات البحرية
Blue Whale **Ship** Supplies

About

Us

Blue whale ship supplies started operating under this name in 1992 by merging together two well-known ship suppliers into a new, bigger company. Strong points of silver sea have its own technical stores, deck and engine stores, mooring ropes & slewing wires thanks to a huge stock built up in our stores chain here in port .said, in addition to branches that covers all the Egyptian ports

Our company settled in port said (head office) since port said is the center of all .the Egyptian ports so we can handle any task given to us

Over the years we have established a work code to make sure that our employees ,are at the standard level of efficiency and to guarantee the quality to our clients

We will make every effort to offer you the best possible services and collaboration .through our head office with all the attention that your business requires

Actually, we are looking forward to save your interest and to establish a long term .co-op between our both sides in the nearest future
